ABSTRACT

Notes on the Bibliography of the Butterflies are arranged in a **three-part catalogue**. **Part I** is the bibliography of 20112 items. **Part II** is an index to the bibliography, arranged by journal title. **Part III** is an index to the bibliography, arranged by year of publication.

TABLE OF CONTENTS

Introduction.....	v
Part I - Bibliography.....	ii+464 pp
Part II - Index to Journals and Serials	ii+167 pp
Part III - Index to Bibliography by Year	ii+52 pp

INTRODUCTION

Journal titles have been checked in the *World List of Scientific Periodicals* [b19866], and these data are included in Part III. Bibliographic information on the authors has been found in Gilbert, 1978 (*A Compendium of the Biographical Literature on Deceased Entomologists*, [b7659]), Carpenter, 1945 & 1953 (*Bibliography of Biographies of Entomologists*, [b2850 & b2851]), Horn and Schenkling, 1928 (*Index Litteraturae Entomologicae, Serie I*, [b9567]), Derksen and Scheiding-Göllner, 1965 (*Index Litteraturae Entomologicae, Serie II*, [b4487]), and, finally, in the *Commemorative Volume of the Lepidopterists' Society*, [b11489].

The task of building up the bibliography has been greatly aided by using, in addition to the above, Moulds, 1977 (*Bibliography of the Australian Butterflies*, [b12873]), Field, dos Passos & Masters, 1974 (*A Bibliography of the Catalogs, Lists, Faunal and Other Papers of the Butterflies of North America North of Mexico*, [b6442]), Kudma, 1985 (*Butterflies of Europe, Volume 1. Concise Bibliography*, [b10995]), and the catalogues of the firm of Wheldon & Wesley, [b19611].

INTRODUCTION

This section is straightforward and needs little introduction. Abbreviations used in journal titles have been taken from the *World List of Scientific Periodicals* [b19866]. I have tried to provide the full names of the authors, and to give some information about where and when they were born and died, and what happened to their collections. This information has been taken from various sources, but the works of Gilbert, 1978 (*A Compendium of the Biographical Literature on Deceased Entomologists*) [b7659], Carpenter, 1945 & 1953 (*Bibliography of Biographies of Entomologists*) [b2850, b2851], Horn & Schenkling, 1928 (*Index Litteraturae Entomologicae, Serie I*) [b9567] and Derksen and Scheiding-Göllner, 1965 (*Index Litteraturae Entomologicae, Serie II*) [b4487] have been most helpful. In general papers with multiple authors are only listed under the senior author, but in cases where junior authors have published material which has nomenclatural implications (i.e. lectotype selections), the paper is given a second entry. For example, Clench described *Parrhasius orgiophantes* in a paper by Nicolay [b13416], and this is included in the bibliography as a separate entry [b3314].

- b4458 1775 Ankündigung eines systematischen Werkes von den Schmetterlingen der Wienergegend. Vienna, Bernardi :322 pp, 2 pl. Authorship and date by Opinion 516 (ICZN). The 1776 edition had an altered title page, but nothing else was new. On Official List of Works Approved as Available for Zoological Nomenclature (#37), The Official List title has some words incorrectly spelled! Many names in it are nondescript. It is necessary to check each name carefully. The short lists of species in lettered groups are separated by large chunks of German which can include descriptions. Some names in the lists are given "indications" and some are illustrated. Koçak has reviewed the status of the names, but his views are rejected by others. The Supplement came in 1869 and 1878 - not all at the end. The title above is the final one, slightly changed from the first one, "- - Lepidoptera. Part 1, Lycaenidae", issued when Hewitson had not finalised his plans. Hewitson died 28 May 1878. The last part was published by H. Grose-Smith, as explained in the Preface, 6 months later. The text was finished by W. F. Kirby, who is shown as responsible for the last new name, *Hypolycaena amba* Kirby (p. Supp. 32, pl Va). After publishing the Specimen Cat. lyc. in B.M., the Br. Mus. "declined" to publish further parts, so Hewitson turned to van Voorst for this fresh venture. The two works are separate, but the Index to the latter covers both. [CFC, pc]. {1863-1878}

- b9868 1954 Opinion 269. Validation, under the Plenary Powers, of the specific name *idas* Linnaeus, 1761, as published in the combinations *Papilio idas*, and determination of the species represented by the nominal species *Papilio idas* Linnaeus, 1761, *Papilio argyrognomon* Bergsträsser, [1779], and *Papilio argus* Linnaeus, 1758 (Class Insecta, Order Lepidoptera). Opin. Declr. Int. Comm. Zool. Nomen. 6(1):1-24, 1 pl. [10 Sep 1954]
- b9869 1954 Opinion 270. Addition to the "Official List of Generic Names in Zoology" of the names of five nominal genera of Butterflies (Class Insecta, Order Lepidoptera), originally established with misidentified Type Species, for which Type Species in harmony with accustomed usage were designated under the Plenary Powers in 1935. Opin. Declr. Int. Comm. Zool. Nomen. 6(1):25-40. [10 Sep 1954]
- b9870 1954 Direction 4. Addition to the Official Lists and Official Indexes of certain scientific names and the titles of certain books dealt with in Opinions 134-160, exclusive of Opinion 149. Opin. Declr. Int. Comm. Zool. Nomen. 2(53):629-652. [1 Oct 1954]
- b9871 1954 Opinion 276. Rejection, as not being of subgeneric status, of the intermediate terms used by Hübner (J.) between the generic and specific names of species in the first volume of the work entitled *Sammlung exotischer Schmetterlinge*, published in the period 1806-1823, and also in the work entitled *Systematisch-alphabetisches Verzeichniss aller bisher bei den Furbildungen zur Sammlung europäischer Schmetterlinge angegebenen Gattungsbennungen* published in 1822. Opin. Declr. Int. Comm. Zool. Nomen. 6(8):95-118. [1 Oct 1954]
- b9872 1954 Opinion 278. Addition to the Official List of Generic Names in Zoology of the names of ten genera of the Sub-Order Rhopalocera of the Order Lepidoptera (Class Insecta), species of which were cited in the undated leaflet commonly known as the Tentamen, prepared by Jacob Hübner, which is believed to have been distributed to correspondents in 1806, a leaflet rejected in Opinion 97. Opin. Declr. Int. Comm. Zool. Nomen. 6(10):135-178. [1 Oct 1954]
- b9873 1954 Opinion 279. Rejection, as of the status of a generic name, of any term placed between the generic name and the specific name of a species in the zoological works of Linnaeus and Fabricius (J. C.) (Opinion supplementary to Opinion 124). Opin. Declr. Int. Comm. Zool. Nomen. 6(11):179-188. [1 Oct 1954]
- b9874 1954 Opinion 282. Determination of the species to which the specific name *plexippus* Linnaeus, 1758, as published in the combination *Papilio plexippus* (Class Insecta, Order Lepidoptera) shall be held to apply. Opin. Declr. Int. Comm. Zool. Nomen. 6(14):225-268, 1 pl. [1 Oct 1954]
